Jl. Wisma Nirmala Sari, Subagan, Karangasem Bali

I'm an undergraduate Informations Technology student at Asia E University who is currently fresh graduate Digital Business & E-Commerce at Brawijaya University. Interested in Entrepreneurship, Machine Learning, Artificial Intelligence, Business Intelligence and the Creative Industry. With a great desire to learn some new skills, and I am willing to challenge myself so that I can have a responsible and great approach to any task that I undertake and improve my skill. I have experience in various organizations on campus as digital marketing, partnerships, creating events, publications, project management, and social media. I am someone with team management skills, analyzing data, negotiation skills, problem-solving, critical thinking, and strong leadership.

## Work Experiences

---

### PT Bank Rakyat Indonesia (Persero) Tbk - Jakarta, Indonesia

Jul 2024 -

#### Regional Decision Support Analyst

PT Bank Rakyat Indonesia (Persero) Tbk, commonly known as BRI, is one of the largest and oldest banks in Indonesia. Established in 1895, BRI is a state-owned enterprise with a focus on micro, small, and medium enterprises (MSMEs). The bank has a vast network of branches and service units across Indonesia, making it one of the most accessible banks for Indonesians. BRI is also known for its commitment to digital transformation and financial inclusion, particularly in rural areas.

- Analyzing large datasets from various sources to identify trends, patterns, and insights that can help in making informed decisions.
- Creating and delivering regular and ad-hoc reports to regional management, focusing on key performance indicators (KPIs), financial metrics, and other relevant data.
- Assisting in the development of regional strategies by providing analytical support and scenario analysis.
- Tracking and analyzing the performance of various branches within the region, identifying areas of improvement, and suggesting actionable recommendations.
- Providing timely and accurate data to support critical decisions related to business development, resource allocation, and operational efficiency.
- Create a Chatbot that provides strategy recommendations for each branch office
